ACADEMIC CURRICULUM VITAE

Dr. Mahfooz Ahmed

Information science / Open science and research data management

I study how researchers share and reuse data, and how institutions support open science. My doctoral work at the International Islamic University Malaysia developed an open science model for research data management at Malaysia's National Institutes of Health. I work with postgraduate researchers and institutions on research design, data analysis and academic writing.

Research appointments

Mar 2025 – Mar 2026

Research Fellow

Gulf University, Bahrain

Supported research publications and collaborative academic work aligned with regional priorities.

Feb 2025 – Feb 2026

Postdoctoral Research Fellow

International Islamic University Malaysia

Researched data governance and digital knowledge management. Collaborated with academic and industry partners, helped develop grant proposals and mentored postgraduate researchers.

Jul 2020 – May 2024

Research Assistant (part-time)

International Islamic University Malaysia

Supported teaching, assessment and student supervision. Designed surveys, analysed data and delivered workshops on research writing and analytical tools.

Education

Jun 2021 – May 2024

PhD in Library and Information Science

International Islamic University Malaysia

An open science model for research data management at Malaysia's National Institutes of Health.

Feb 2019 – Apr 2021

Master of Library and Information Science

International Islamic University Malaysia

Readiness toward the implementation of open science initiatives in Malaysian comprehensive public universities.

Nov 2011 – Feb 2016

Bachelor of Library and Information Science

Ahmadu Bello University, Zaria, Nigeria

Automated clinic record management system: A case study of Ahmadu Bello University Sickbay.

Research methods and languages

Research and analysis. Data analysis and visualisation, SPSS, SmartPLS, NVivo and RStudio.

Information systems. Web and database programming, SQL, PHP, JavaScript, WordPress, Koha and DSpace.

Digital technologies. Business intelligence, machine learning, artificial intelligence, the Internet of Things and blockchain.

Languages. English (fluent), Arabic (professional), Hausa and Yoruba (native).

RESEARCH RECORD

Selected publications
